

Lease Sale 213 Bids Approved by MMS after April 20, 2010

Deepwater Horizon Blowout

Lease Block Depth Calculation Disclaimer:
 Depth values were interpolated from the NOAA 2 minute bathymetry data set at the centroid of each lease block. These depths should be considered approximate, since they represent a range of depths within each lease block. Maximum depths within each lease block could be greater. Calculations were performed using ESRI ArcView (v9.3.1) and the Spatial Analyst and XTools (v5.3) Extensions.
